Like a Diamond in the Sky

In the annals of medicine Kodol is up above the world so high that it is like a diamond in the sky.

True merit has elevated this famous remedy to that position wherein it stands preeminently as the world's recognized cure for all disorders of the stomach and digestive organs.

Unlike all other remedies, Kodol combines the natural digestants with the greatest known tonic and reconstructive properties. It does not purge the system. The weak should never be weakened and the sick should never be sickened. Such treatment gives temporary relief often, but permanent good never.

Immediate benefits follow the first dose, and perfect health is the permanent result derived from the use of Kodol.
